1 SET MY GOAL

FUNDAMENTALS FOCUS

In **sports**, kids will focus on the importance of setting goals that they want to achieve.  
In **faith**, kids will see how God has special things for them to accomplish.

Overview

In **sports**, fundamentals are vital to an athlete’s success. As kids practice the fundamentals of their sport, they will get better in competition. Even the very best athletes still want to improve, and they often set goals to help them focus. Today’s sports example is LeBron James. Even though he is one of the best basketball players in the world, he still sets goals.

In **the Bible**, Nehemiah shows kids how God wants to help us accomplish great things. In today’s story, the kids will meet Nehemiah. They’ll find out why he set his goal to rebuild the wall of Jerusalem and how he included God in his goal setting.

In **Response Time**, kids will have the opportunity to set a goal too. They might choose something about sports or from life. They will end the day by asking God to help them commit to accomplishing their goal.

**MEGA Verse:**

*Watch, stand fast in the faith, be brave, be strong.* 1 Corinthians 16:13, NKJV

Who loves basketball? Clap twice if you love basketball.

• Let kids clap their hands twice as you count their claps aloud.

One of the fundamentals of basketball is shooting free throws. That’s what today’s sports story is about. Raise your hand if you think you know who we’re going to talk about today. *(Group response)*

• Display the Day 1 Sports Flash slide.

Who’s heard of LeBron James? *(Group response)* He is one of the most famous basketball players there is. He’s won NBA championships and Olympic gold medals. He’s a great basketball player. But even when you are as good as LeBron James, you still need to set goals. A couple of years ago, LeBron James set a goal of making 80 percent of his free throws. That means he wants to make eight out of every ten free throws that he shoots.
MEGA MINUTE CHALLENGE

Let's pause our story here and add some fun as we talk about the fundamental of setting a goal. I need the Head Coach for each sport to come up here.

- Head Coaches come to the stage and join MEGA.
- Hold up the container and a paper wad.

We're going to use this container as our goal and these paper wads as our basketballs. Each Head Coach is going to have ten tries to get the paper wads into the goal. MEGA is going to get ten tries too. Just like with free throws, they need to stand behind a line. If they make at least eight of the shots, they will have an average of 80 percent.

Coaches, it's time to set your goal for this game. How many baskets do you want to make? (Pause for coaches to respond.)

Let's see how they do. Make sure to cheer for your sport's Head Coach and count how many baskets they make. Are you ready? (Group response)

- Play the MEGA Minute Challenge Countdown video.
- Let each coach shoot ten shots. As they finish, line them up from most to fewest baskets made.
- If you have a lot of coaches, have several coaches play at the same time using different colored paper wads.
- Display the Day 1 MEGA Point slide.

Who remembers what LeBron's free throw goal is? (80 percent) How many of our coaches made 80 percent or eight out of ten of their baskets?

Do you think LeBron James has ever made 80 percent of his free throws in a season? (Group response) No, he hasn't. He is still trying to meet the goal that he set.

- MEGA does the MEGA Point action.

Today's fundamental is . . . I will set my goal.

- MEGA pumps his arms.

CONCLUSION

When we come back for the Closing Rally, we're going to hear a story from the Bible about setting goals. Right now we have another Sports Session. Who's ready to play some more sports?
